### **Resources & Services:**

SCC is dedicated to helping students successfully transfer to four-year universities and make career decisions. Students always get the individualized help they need from friendly and professional staff in the Counseling and Admissions office. We can help students with information about courses needed to transfer, how and when to apply to universities, how to connect with university representatives, and many other aspects of the transfer process. You may also take career assessments and research careers at the College Transfer and Career Center.

Transfer and career information for students thinking beyond SCC include:

- Individual transfer and career counseling,
- Comprehensive collection of materials from various colleges, including applications, catalogs, and viewbooks,
- Online search tools to discover career and college options, and
- One-on-one visits with university transfer representatives.
