SCC Offers Weekend Computer Empowerment Class

Southeastern Community College's Continuing Education Division is offering a computer course designed to help individuals improve their chances of getting a job.

A Weekend Computer Empowerment Class meets July 17 through July 26 on Fridays from 6 to 9 p.m., Saturdays from 9 a.m. to 4 p.m. with an hour for lunch, and Sundays from 2-5 p.m. in T-126 at SCC. This class is designed for individuals who do not have time to take a weekday class.

In two weekends, participants will apply basic computer skills to enhanced applications for job search activities. Also, they will increase knowledge of word processing skills as well as résumé preparation techniques. Spreadsheets will be introduced as a job search tool along with enhanced Internet and e-mail capabilities. Some computer experience is required.

This class may be fee waived for individuals who are unemployed, underemployed or dislocated workers.

For more information or to pre-register, contact the Columbus County JobLink Career Center at 642-7141, ext. 261, or visit the Center located in A-Building at Southeastern Community College at 4564 Chadbourn Highway in Whiteville.
