SCC Instructor Shares CSI Techniques with Third Graders

Students in Mr. Davis's 3rd grade class at Edgewood Elementary School recently had the opportunity to be educated and entertained by SCC Criminal Justice Instructor Jody Taylor. Taylor demonstrated crime scene investigation techniques to the class such as how fingerprints are gathered. "Young people see so much excitement on TV that sometimes it is hard for them to tell reality from fiction. Therefore, I believe it is important for us, as educators and parents, to show them that the real world has plenty of excitement to offer, you just have to know where to look," Taylor said. For more information about the Criminal Justice program at SCC call 642-7141, ext. 321 or visit us on the web at www.sccnc.edu.
